 **BATTERY LIFE**
120 minutes per charge

 **ANTI-FALL FEATURE**
Prevents drops from stairs/edges

Who It Is For

-  Users with pets needing daily debris removal
-  Homeowners with hard floors and carpets
-  Busy professionals seeking automated cleaning
-  Families needing 90-day maintenance-free operation

Who It Is Not For

-  Those relying on 5GHz WiFi networks
-  Users requiring daily manual cleaning
-  Individuals without 2.4GHz router access
-  People prioritizing frequent battery charging

Trade Offs to Consider

-  90-day self-emptying vs daily bin-emptying
-  5000Pa suction vs lower power models
-  2.4GHz WiFi vs dual-band compatibility
-  Anti-fall sensors vs basic navigation

How It Compares

- 90-day dirt collection vs daily emptying
- LiDAR mapping vs basic sensors
- 2.4GHz WiFi vs dual-band support
- Self-cleaning mode vs manual operation

Choose This If...

- ✓ Need 90 days of maintenance-free cleaning
- ✓ Require strong suction for pet hair
- ✓ Want smart app scheduling features
- ✓ Have 2.4GHz WiFi network access

Skip This If...

- ✗ Only have 5GHz WiFi network
- ✗ Prefer daily manual cleaning control
- ✗ Need frequent battery recharging
- ✗ Don't need anti-fall protection
