COLLECTION TECHNOLOGY

MultiCyclonic system for efficient dirt capture

✓ Who It Is For

- ✓ Pet owners with pets shedding hair
- ✓ Homeowners with hard floors and carpets
- ✓ Users needing easy emptying of dirt tank
- ✓ Those requiring maneuverable swivel steering
- ✓ People with pets needing specialized tools
- ✓ Users looking for corded, no battery vacuum
- ✓ Individuals needing powerful suction for pet hair

✗ Who It Is Not For

- ✗ Those preferring cordless vacuums
- ✗ Users with only outdoor cleaning needs
- ✗ People wanting lightweight vacuums
- ✗ Those wanting quiet operation
- ✗ Users with small pets only
- ✗ Individuals needing compact design
- ✗ People with limited storage space

Trade Offs to Consider

- Corded design limits mobility compared to cordless
- Larger size may be harder to store
- Higher noise level than some models
- Requires regular emptying of dirt tank
- Less portability than handheld vacuums
- Heavier than some upright models
- May not be ideal for very small spaces

Users Say

● POSITIVES

- ✓ Effective at picking up pet hair from carpets
- ✓ Swivel steering makes cleaning under furniture easier
- ✓ Large dirt tank reduces emptying frequency
- ✓ MultiCyclonic system captures more dirt
- ✓ Easy-to-clean disk filter

● COMPLAINTS

- ⚠ Loud operation compared to battery-powered models
- ⚠ Heavier than some cordless alternatives
- ⚠ Not ideal for very small spaces
- ⚠ Dirt tank can be cumbersome to empty
- ⚠ Limited power levels compared to higher-end models

How It Compares

- Less powerful than high-end cordless models
- Not as quiet as some cordless options
- Smaller capacity than some upright vacuums
- More noise than battery-powered alternatives
- Less maneuverable than some cordless vacuums
- Not as lightweight as handheld models
- Requires more frequent emptying than larger tanks

Choose This If...

- ✓ Need powerful suction for pet hair
- ✓ Prefer corded, no battery vacuum
- ✓ Want maneuverable swivel steering
- ✓ Need efficient dirt capture system
- ✓ Looking for easy maintenance filters
- ✓ Prefer upright design for carpets
- ✓ Require specialized pet tools

Skip This If...

- ✗ Prefer cordless, battery-powered vacuums
- ✗ Need quiet operation for early mornings
- ✗ Want lightweight, portable vacuum
- ✗ Have limited storage space
- ✗ Prefer compact design for small areas
- ✗ Need more frequent emptying
- ✗ Prefer lower noise levels
