**NAVIGATION**

**LiDAR mapping for precise coverage**

**CONTROL METHODS**

**App, voice, or button controls**

**BATTERY LIFE**

**200 minutes per charge**

**DIMENSIONS**

**13.2"L x 13.2"W x 4.1"H**

## Who It Is For

---

-  Users with pets needing daily cleaning
-  Allergies sufferers requiring allergen containment
-  Busy professionals wanting automated maintenance
-  Families with multiple floor types

## Who It Is Not For

---

-  Owners of very large open spaces
-  Those needing frequent manual cleaning
-  Users without smart home integration

## Trade Offs to Consider

---

-  Less suction than premium models
-  Limited spot cleaning duration
-  Requires periodic bag replacement
-  Battery life shorter than competitors

## How It Compares

---

- Self-emptying dock vs manual emptying
- LiDAR navigation vs basic sensors
- 70x suction vs standard models
- App integration vs basic controls

## Choose This If...

---

- ✓ Need 75-day cleaning autonomy
- ✓ Want allergen containment system
- ✓ Prefer smart home integration
- ✓ Have mixed floor surfaces

## Skip This If...

---

- × Have spaces larger than 1,500 sq ft
- × Require more aggressive suction
- × Need frequent manual intervention
- × Prefer longer battery life
