✓ Who It Is For

- ✓ Homes with multiple pets
- ✓ Users with hard floors and carpets
- ✓ People who want hands-free cleaning
- ✓ Those who prefer voice control
- ✓ Individuals with busy schedules
- ✓ Owners who want smart home mapping
- ✓ Users who need self-emptying base

✗ Who It Is Not For

- ✗ Users without Alexa or Google Assistant
- ✗ Homes with large open spaces
- ✗ Those who prefer manual cleaning
- ✗ Individuals with limited floor types
- ✗ People who want minimal maintenance
- ✗ Users who need frequent battery charging
- ✗ Owners who prefer compact design

Trade Offs to Consider

- Larger size may be harder to maneuver
- Self-emptying base requires setup
- Battery life may not cover large homes
- Higher cost compared to basic models
- Limited compatibility with other smart devices
- Requires regular filter cleaning
- Not ideal for very small spaces

Users Say

● POSITIVES

- ✓ Cleans up pet hair effectively
- ✓ Self-emptying base is a big plus
- ✓ Voice control is convenient
- ✓ Maps home accurately
- ✓ Strong suction for deep cleaning

● COMPLAINTS

- ⚠ Battery life is short for large homes
- ⚠ Setup can be complicated
- ⚠ Self-emptying base needs regular maintenance
- ⚠ Not ideal for very small spaces
- ⚠ Larger size is harder to move

How It Compares

- More powerful suction than basic models
- Includes smart home mapping
- Self-emptying base is a major feature
- Voice control is convenient
- Larger size may be harder to maneuver
- Battery life is shorter than some competitors
- Higher cost than entry-level models

Choose This If...

- ✓ You have pets and need deep cleaning
- ✓ You want voice control for convenience
- ✓ You need smart home mapping
- ✓ You prefer self-emptying base
- ✓ You have both carpets and hard floors
- ✓ You want powerful suction for debris
- ✓ You need hands-free cleaning

Skip This If...

- ✗ You don't use voice assistants
- ✗ You have limited floor types
- ✗ You prefer compact design
- ✗ You need frequent battery charging
- ✗ You want minimal maintenance
- ✗ You have very small spaces
- ✗ You need quick setup
