## Who It Is For

---

-  Pet owners with carpets
-  Users with multiple floor types
-  Those needing smart scheduling
-  People with voice assistant setups
-  Individuals with stairs or drops
-  Users with large home spaces

## Who It Is Not For

---

-  Users with no Wi-Fi access
-  Those without Alexa or Google Assistant
-  People with very small spaces
-  Individuals without a self-emptying base
-  Users with high-pile carpets
-  Those seeking minimal maintenance

## Trade Offs to Consider

---

-  Requires 2.4G Wi-Fi for full features
-  Heavier than some models
-  Limited to 14 no-go zones
-  Battery life may vary with use
-  Includes AAA batteries for remote
-  No built-in dustbin for debris

## Users Say

---

### ● POSITIVES

- ✓ Smart mapping makes cleaning efficient
- ✓ Strong suction handles pet hair well
- ✓ Voice control is convenient for daily use

---

### ● COMPLAINTS

- ⚠ Self-emptying base takes up space
- ⚠ Battery life shorter than expected
- ⚠ No-go zones may not cover all areas

## How It Compares

---

- Better suction than most models
- Smarter mapping than basic robots
- More modes for cleaning flexibility
- Includes self-emptying base
- Heavier than some competitors
- Requires Wi-Fi for full functionality

## Choose This If...

---

- ✓ You need strong suction for pets
- ✓ You have multiple floor types
- ✓ Smart mapping is important to you
- ✓ Voice control is preferred
- ✓ You have stairs or drops to avoid

## Skip This If...

---

- × You lack 2.4G Wi-Fi access
- × You prefer a lighter model
- × You have high-pile carpets
- × You want minimal maintenance
- × You don't use voice assistants
