 **CONTROL**  
**App, voice, and remote control options**

## Who It Is For

---

-  Pet owners with hair shedding
-  Users needing scheduled cleaning
-  Hard floor maintenance
-  Families with multiple rooms

## Who It Is Not For

---

-  Users with thick pile carpets
-  Those requiring heavy-duty debris removal
-  Without 2.4GHz WiFi access

## Trade Offs to Consider

---

-  Battery life vs. coverage area
-  2-in-1 design vs. water spill risk
-  App dependency vs. manual control

## Users Say

---

### ● POSITIVES

- ✓ Easy to schedule and control
- ✓ Covers corners with thin design

### ● COMPLAINTS

- ⚠ App connectivity issues reported
- ⚠ Water tank capacity limited

## How It Compares

---

- Better than single-function vacuums
- Less powerful than heavy-duty mops
- More flexible than fixed-path robots

## Choose This If...

---

- ✓ Need smart scheduling
- ✓ Have pets with shedding
- ✓ Want wet/dry cleaning

## Skip This If...

---

- × Floor has thick carpets
- × Require industrial-grade suction
- × No WiFi access
